Applications/Features:

Operator safety is the first consideration when water-blasting; the Aqua Energy **Safety Shroud** is designed specifically for use with hand held control guns. These safety shrouds protect the operator from dangerous hose failures occurring near the gun. One should NEVER connect an un-shrouded hose directly to a water-blasting gun. ALWAYS connect a whip hose and safety shroud to the gun first, and then connect the appropriate hose to the other end of the shroud/whip hose with a quick coupling.

The **Safety Shroud** features a nitrile outer cover which is water, oil and soil resistant. The inner material consists of high strength braided stainless steel. The 1379 bar (20,000 psi) shrouds also include a layer of woven Kevlar™ for superior strength. In the “exploded” view at far left, you can see the heavy duty couplings and multiple layers of protection this shroud provides in this vital area next to the operator’s body.

Shroud and safety whip hoses and quick couplings featured on the next page are ideal in combination with these safety shrouds.

ITEM	DESCRIPTION	QTY.	PART NO.
COMPLETE	10K Safety Shroud With Whip Hose Assembly	1	77516018
1	Safety Shroud Assembly, 10/15K	1	77516015
2	Whip Hose, 1/2" NPT x 6 Feet, 10K Rubber	1	77516017
3	Safety Shroud Adapter, 10/15K	1	77516016
COMPLETE	15K Safety Shroud With Whip Hose Assembly	1	77516032
1	Safety Shroud Assembly, 10/15K	1	77516015
2	Whip Hose, 1/2" NPT x 6 Feet, 15K Rubber	1	77516025
